Island Platform 55 Feet Below the Side walk in Forty-second Street to Be Reached by Two Moving Stairways -Many Subway Connections Planned.

Property owners in the neighborhood of the Grand Central Station and profesdonal operators who take advantage of new transit improvements are just now making special efforts to learn what terminal arrangements have been made for the Belmont tunnel from Long Island City. Up to the present no definite information in regard to the station has been obtain-Mr. Belmont has had little to say about it, and other officials of the New York and Long Island Railroad have been equally reticent. A recent announcement that the contract for escalators has been awarded was the first intimation that the terminal is well under way The contract, which was given to the Otis Elevator Company, calls for the installation of two escalators on Forty-second street between Third and Lexington avenues. -

The Belmont interests own a plot of about 40x100 feet at Nos. 156 and 158 East Forty-second street, adjoining the corner of Third avenue. On this plot, purchased about a year and a half ago, the Belmont company has sunk a shaft, from the bottom of which borings were made to meet the tubes being pushed westward under Fortysecond street from the East river.

According to William Barclay Parsons who is directing the construction of the tunnel, this has been completed under Forty-second street from the East River as far west as the Grand Central, and has been equipped with running tracks. A loop under Forty-second street and Park avenue will enable cars operating in the tunnel to swing around and return to Long Shortly before reaching Third avenue the twin underriver tubes widen out and unite to form a single large

In the area between the in and out bound tracks west of Third avenue a station is placed, similar to the platforms at express stations in the present subway. Above the platform is a mezzanine floor, reached from belew by a number of stairways. From the mezzanine floor, two escalators will be operated side by side, each with a carrying capacity of 10,000 persons an hour. The escalators will be at right angles with the tracks and will have an exit within the sidewalk line. The greater part of the plot formerly used in the tunneling operation will be utilized for this purpose. The plot is on the south side of the street, 100 feet west of Third avenue. The escalators will be so arranged that in the rush hours both may be operated in the same direction. Their cost is estimated at about \$80,000. Charles D. Seeberger of the Otis Elevator Company, the inventor of the escalator, is in charge of the work.

The tunnel is far below the surface, the top of the tube being over fifty feet below tion is placed, similar to the platforms at top of the tube being over fifty feet below the street level at Park avenue. The tracks are at least fifteen feet below this. The unusual depth of the tunnel is due to the sharp dip made in order to pass under the bed of the East River, and also to the street incline in Forty-second street weststreet incline in Forty-second street west-ward from the waterfront. This great

depth will obviate grade crossings on future subways projected by the city.

The New York and Long Island Railroad intends to make connections with the municipal subways, including the proposed routes on Third and Lexington avenues, the present Park avenue tunnel, and the proposed lines along Seventh and

Eighth avenues.

The Belmont tunnel is being equipped to operate either special cars similar to those operate either special cars similar to those in use in the present subway or regular trolley cars from Long Island City. It is understood to be the intention, if the Steinway franchise is sustained and if the city interposes no objection, to run trolley cars from Long Island City and other parts of the Borough of Queens through the tunnel, as far west ultimately as Eighth avenue, connecting with the various municipal subways along the route.

THIRTY-THIRD STREET.—John Donnel ly has resold for Anna Giberson to a client of De Blois & Eldridge No. 159 East Thirty-third street, a four story dwelling, on lot 20x98.9. The buyer will erect a business building on the site. The seller bought the property on December 15 and has not taken title.

taken title.

Miscellaneous.

Miscellaneous.

The McVickar, Gaillard Realty Company has leased for the Chesebrough Building Company and the Clyde Steamship Company space on the ground floor and basement of the Chesebrough Building at Nos. 17-19 State street, and Nos. 2 to 8 Pearl street, containing about 5,000 square feet, part of which was formerly occupied by the Clyde Line, to the Compagnie Generale Transatiantique for a term of years. Potter & Bro. deny the report that they have sold the property at Nos. 215 to 221 West Forty-second street.

Thompson J. S. Flint is the buyer of 90 Lexington avenue, northeast corner of Twenty-

have sold the property at Nos. 215 to 221 West Forty-second street.
Thompson J. S. Flint is the buyer of 30 Lexington avenue, northeast corner of Twenty-seventh street, sold recently by C. Grayson Martin.

Simon Frankel is the buyer of 624 Fifth avenue, sold by by the Ziegler estate through Taylor Brothers.

William Oppenheim and Meyer Vessel are the buyers of the seven story elevator apartment house at the southwest corner of Eighth avenue and Seventeenth street.

Sol Freidus has moved his office from 39 West 135th street to 1313 Lexington avenue.

Frederick Fox & Co. have leased for Alfred Vischer & Co.12,000 square feet of space in 43 to 51 West Fourth street, corner Washington. square; also, for Louis Cohen, 12,000 square feet of space in 37 East Twelfth street; also, for Harry C. Hallenback, 10,000 square feet of space in 64-66 East Eleventh street; also, for Thomas J. Surpless, 7,000 square feet of space in 64-66 East Eleventh street; and for Charles Kaye, 5,000 square feet of space in 16 East Eleventh street; and for Charles Kaye, 5,000 square feet of space in the twelve story building now being erected at 12-14 West Twenty-first street.

The H. H. Fuller Realty Company has leased in the sw ten story building at Nos. 291 and 293 Seventh avenue 4,000 square feet to the F. C. Osmers Manufacturing Company and 8,000 square feet to the Arto Lithograph Company and Parker Process Company for a long term of years.

Heil & Stern report the following leases: For Moses Sahlein to James Drew & Co. the store, basement and sub-basement at No. 661 Broadway, running through to Mercer street, for a term of years; for Josephine MacDonald 7,000 feet in Nos. 718 and 720 Broadway; for the estate of Leopold Sinsheimer 7,000 feet in No. 714 Broadway; for E. A. Darling 5,000 feet in No. 82 and 25 East Twenty-first street.

William J. Matheson & Co., owners of the building at Nos 182 and 184 Front street, deny

William J. Matheson & Co., owners of the building at Nos. 182 and 184 Front street, deny the reported sale of their property.

Under the direction of I. H. Rosenfeld, the working are engaged building at Nos. 182 and 184 Front street, deny
the reported sale of their property.
Under the direction of I. H. Rosenfeld, the
owner of the property, workmen are engaged
in making many changes and improvements
in the Arverne Hotel at Arverne, L. I., in time
for the summer season. Most of the alterations are being made in the interior of the
hotel, though an important addition has been
built on the outside at the northwest end.
Charles T. Cunningham, manager of the hotel,
will soon open his office at the Hotel Savoy, in
this city, for the reservation of rooms.
Flans nave been filled with Building Superintendent Murphy for modernizing the old
style four story tenement house at the corner
of Monroe and Catharine streets to comply
with the requirements of the Tenement House
Department in the matter of improved light
and ventilation. The improvements are to be
made for the estate of Howard Crosby as
owner. The architect is Warren H. Conover.
Chief Architect C. B. J. Snyder of the
Department of Education has filed plans for
two emergency fire exits to be built on either
side of the main entrance of the four story
public school in Vandewater street, in which
a fire occurred a few weeks ago that demonstrated the necessity of better facilities for
emptying the building quickly in an emergency.

The plans for new buildings filed with the
Bronx bureau yesterday comprise a two
story dwelling to be built on McGraw avenue
east of White Plains avenue at a cost of \$4,800,
and three groups of dwellings, to be built for
Hamden & Belmont, six on Grand avenue
at the northwest corner of 180th street and
four at the northeast corner, two and three
stories high, and to cost \$32,000 a group, making
a total of \$112,000 for the fourteen buildings.
No plans for new buildings were filed with
the Manhattan bureau.

IRON AND STEEL.

Prompt Pig Iron in Gaining Demand -Strong Statistical Position of Steel. The domestic pig iron markets exhibit in-tense activity in sales of prompt metal. All grades are strong. Scotch and English foundry excepted, which are softening slightly. Scotch No. 1 spot is \$24.50; Middle sbrough No. 1 spot, \$23@\$23.50. Demands in the South are taking most of the available spot Alabama foundry grades at \$24 at furnaces. Eastern and Western spot is scarce and is at \$26@\$27 on the basis of No. 2 X at furnaces. For the second half, Southern foundry is at \$19@\$19.50 for No. 2, at Birmingham. Second quarter is at \$22@\$22.50. Southern makers of the best brands are in an independent mood, under the belief that hand to mouth conditions will rule for the whole of the year in foundry and steel making irons. Eastern foundry is strong at \$23 for second half No. 2 X, with second quarter at \$24@\$24.50, at furnaces. All markets are hungry for basic, which is at \$23 for round tonnages of Eastern at furnaces for forward delivery, with \$24 as the minimum price for prompts.
The Chicago and Pittsburg iron markets
report strong conditions and steady inflows
of business. The effects of the publication of the quarterly report of the United States Steel Corporation were shown in the avidity with which large consumers of pig iron bought in yesterday's market. This corporation is now producing pig iron at the rate of 347,000 tons per annum in excess of double the world's entire production of pig iron a century ago, and its annual output is on the basis of upward of a million output is on the basis of upward of a million tons more than the country's whole output in 1890. The strong statistical position of steel is set forth by the unprecedented backwardation in crude, semi-finished and finished material. Upward of \$300,000,000 worth of steel products are due to customers of steel mills, under backwardations ranging from twelve to twenty weeks. Stocks were never lower in the warehouses of distributors than at present. In rolling stock present business is gaining by leaps and bounds, and there is notable activity in light rails.

COPPER, TIN AND LEAD. 1,500,000 Lbs. Casting Copper Sold at 25c. -Canard as to C. & H. Copper at 23 1-2c. for May.

Yesterday's domestic copper markets were strong and moderately active for deliveries to the end of May. One of the sales was reported at 1,500,000 lbs. of Copper Range casting copper to a brass working corporation at 25c. net for May shipments. For March, April and May the few producers who are in the market effected sales at 25% to 25%c. for electrolytic, and 25% to 25%c. for prime lake. Among other canards as to copper sales circulated in the speculative market was the story that the Calumet and Hecla Mining Company was proffering May copper at 23%c., and at which price several million pounds had been sold for home and foreign account. These statements were pronounced fabrications by the Calumet and Hecla officials. This company has been out of the market for several weeks. having sold all the copper that can be pro-duced for some time forward. Another lake company which was reported by certain speculative interests to have sold its output for June at 25c. informs THE Sun that no business has been taken beyond May, and that they declined yesterday proffers of 25%c. for June copper. In the copper and brass working stades demands for finished products working crades demands for finished products are running beyond the capacities of the larger plants to fill in less than than a backwardation of two to four months.

The foreign markets were moderately active yesterday under demands for high conductivity at the equivalents of 25% to 28%c.

for prompts.

The London speculative market moved up under strong work by the bulls, closing at £106 7s. 8d, for spot, and £107 12s. 8d, for forward. Best selected is at £114 is.
Pig tin is moderately active at 41% to 42%.
The London market closed at £180 i7s. 8d. for spc and three months. Pig lead is active at 6.23@6.80e., spot.
